

# Monthly Garden Tips

---

## September Garden Tips

- Plant cold hardy annuals. See ([Cold Tolerant Annuals](#))
- Start to plan for your spring flowers with bulbs this fall. See ([Bulbs in the Landscape](#))
- Late in the month is a good time to bring in any tropical plants like hibiscus, etc. Treat with a systemic.
- Continue to cut down perennials as their flowers become spent, and plant perennials. See ([Basic Perennial Garden Care](#)) ([Perennials for Fall Interest](#))
- Finalize your touch up trimming. See ([Pruning Basics](#))
- Time to transplant trees. See ([Tree Owner's manual](#))
- Must wrap trees now. See ([Tree Wrapping](#))
- Aerating to benefit soil conditions can be done as the lawn goes into its fall growth period.
- Now is the time to start your fall fertilizer and weed control application.
- This is a great time to sod and seed.
